

THE IMPORTANCE OF GOOD PHOTOGRAPHY

We want to stress the importance of good photography for your *Designer Jewelry Showcase* page. In our experience, ads that are professionally photographed receive the best response. Here is a list of photographers who specialize in jewelry.

These names are organized loosely by geographic area; however, most work with jewelers from other locations.

We suggest that you schedule your photography as soon as possible. You will get better results if you plan in advance – deadlines have a way of creeping up on us!
