

THE IMPORTANCE OF PROFESSIONAL PHOTOGRAPHY

We want to stress the importance of good photography for your *Designer Jewelry Showcase* page. In our experience, ads that receive the best response are professionally photographed, exhibiting jewelry on a simple background.

Here is a list of photographers who specialize in jewelry. These names are organized loosely by geographic area. However, most work with jewelers from other locations.

We suggest that you schedule your photography as soon as possible. You will get better results if you plan in advance – deadlines have a way of creeping up on us!

RECOMMENDED JEWELRY PHOTOGRAPHERS
